Home *for* gourmets

SEVVA is a stylish hub for gourmets to enjoy delicacies along with stunning city skyline and breathtaking harbor views.

SEVVA is pronounced as 'savor,' with a meaning of experiencing a taste. Owner Bonnie Gokson launched SEVVA in Hong Kong, with the combined essence of traditional regional Chinese cuisines, Western, and fine European dining, coupled with her own travel and cooking experiences.

Guests can enjoy a truly unique and quintessential dining experience that resembles nothing else in Hong Kong.

World-renowned and multiple award-winning architect Calvin Tsao worked his magic on the Princes Building penthouse and turned the place into an architectural marvel. SEVVA enjoys stunning 360 degree views over Hong Kong, from the heart of the city.

This penthouse restaurant with an amazing wrap around terrace is the perfect location for appreciating the breathtaking Hong Kong views, the ideal place to chill and lounge with friends. It is however not just a tastefully designed and stylish fancy restaurant.

It is the place for gourmet dining, after a long day of work. The delicacies presented in this restaurant are reflections of the food discoveries of the owner; she shares her love of a mix of East and West cuisines. Many of the dishes are reminiscent of the gourmet delights that she had enjoyed in different countries.

Enjoy the delicacies with the stunning views in the different rooms and areas in SEVVA. There is the Harbourside, Bankside, Taste Bar, the Terrace and, last but not least, Ms. B's Sweet (Cake Corner), the dream place for cake and dessert lovers.
